## STRAWBERRY TOPPING FOR CHEESECAKE

### INGREDIENTS

Don Carmelo Strawberries in light syrup

Cornstarch + water: You don't need much, but you must dissolve the cornstarch in a little water before using. This is called a "slurry"; see raspberry cake filling an example. Without mixing with water, the cornstarch will leave white chunks in your strawberry sauce.

Lemon juice + zest: Keeps the flavor bright. The sauce won't taste like lemon, I promise!

Sugar: Just enough to sweeten the sauce without taking away from the strawberry's natural flavor.
